

TRANSAFE

AR10x96

The Original Low Profile airport barricades. The AR line is your maintenance free answer to work zone delineation. The only 100% FOD Free low profile airport barricade.

The Original Airport Barricade

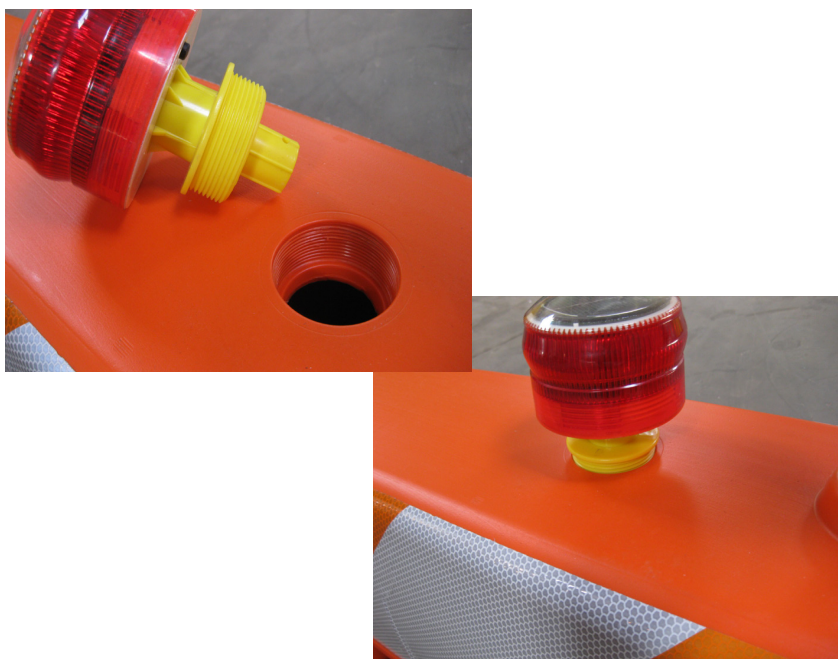

100% FOD Free system. No nuts and bolts needed.

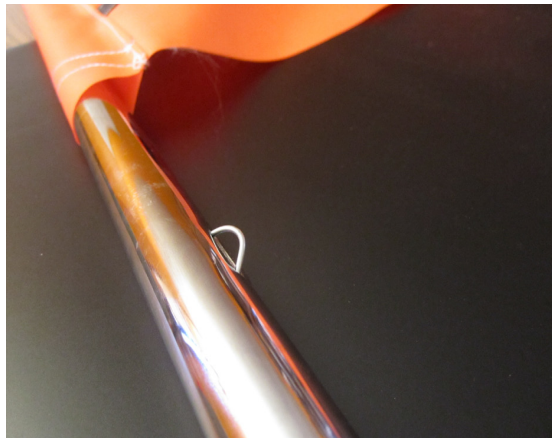

3-degree angled sides to help pilot visibility .

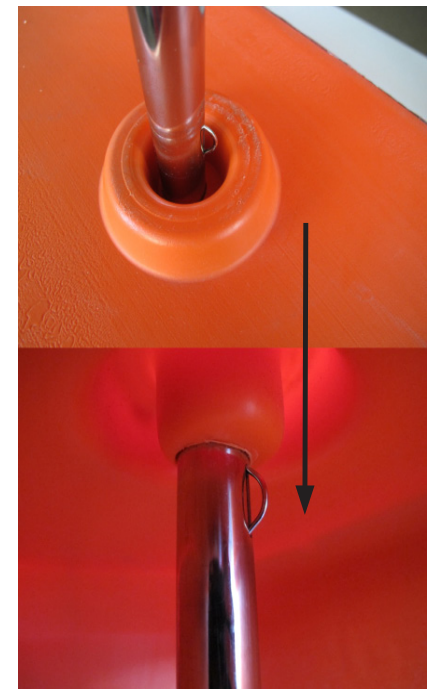

Our ultra low profile barricades mark off hazardous construction zones. Since they are made from non conductive material they won't spark if struck by a metal object. The AR10x96 v.2 is 100% FOD free when it is used with the CO1 light and AR Flag.

CO1 lights screw directly into barricades.

AR Flag with locking push pin and steel dowel.

Features & Benefits:

- Jet blast resistant barricade
- 100% FOD Free system with AR Flag and CO1 Light
- Requires no additional hardware or parts
- Meets FAA A/C 150/5370-2F
- Frangible
- Barricade shape is low enough not to interfere with aircraft
- CO1 light screws directly into barricade
- AR Flag with push pin will stay in barricade and will withstand jet blasts
- 4th generation of the Original Low Profile Airport Barricade
- Easy to install and break down
- Stackable for easy storage
